

Bone Dry Concrete Degreaser

Bone Dry Concrete Degreaser is a low-foaming, low-VOC concentrated degreaser. Dilute it for the soil level and cleaning method, apply, let it penetrate, scrub and wipe dry.

AT A GLANCE

Item	Details
Dilution	1:2 to 1:16, by soil level and cleaning method (see Dilution)
Equipment	Scrubbing pad, auto-scrubber, mop and bucket, pressure washer, pump sprayer or other manual cleaning tools
Coverage	400 sq ft per gallon
pH	13 to 14
Application temperature	35–95 °F ambient and surface (2–35 °C)
Storage	Above freezing and below 90°F. Shelf life is 2 years.

BEFORE YOU START

- Application temperature: apply when ambient and surface temperatures are between 35 °F and 95 °F (2 °C and 35 °C).
- Do not let the product dry on glass. The glass surface may etch.
- Read the Safety Data Sheet before use.

DILUTION

Soil level or method	Dilution (product : water)
Light soil	1:16
Medium soil, auto-scrubber or pressure washing	1:8
Heavy soil or mop bucket	1:4
Carbonized soils	1:2

APPLICATION

1. Dilute the degreaser for the degree of soil and the cleaning method.
2. Apply it using spray, brush or sponge.
3. Let the degreaser penetrate the soil.
4. Scrub to remove the soil and clean the surface.
5. Wipe the surface dry.
6. Rinse food contact areas with water after use.

STORAGE

Store above freezing and below 90°F. Shelf life is 2 years.

WARRANTY AND SUPPORT

Bone Dry Concrete Degreaser carries a manufacturer's limited warranty that the product is free of defects. It covers replacing the Bone Dry product if there is a claim on the product.
